

VÉLØ Oracle Prime — Strike Recommendations

Cheltenham — 10 March 2026

Executive Summary

Strikes: $\frac{4}{7}$ (57%) | Quarantines: $\frac{3}{7}$ (43%)

- **High Confidence:** 1
- **Medium Confidence:** 2
- **Low Confidence:** 1

Going is **Good to Soft**, which is a workable surface and avoids the automatic Q5 quarantine gate for large fields. Three races are quarantined due to a combination of large fields, conflicting picks, and high chaos ratings.

1. Priority Strike (HIGH Confidence)

Race 5 (4:00) — Brighterdaysahead

- **Verdict:** STRIKE, HIGH
 - **Reasoning:** Dominant signal. Full consensus (Postdata + Topspeed). Leads on all key metrics: OR (160), RPR (173), PM (176), and TS (166). Chaos rating is low (2) in a 10-runner field. The only credible danger is Lossiemouth, but Brighterdaysahead has a clear advantage across the board. This is the strongest engine signal of the day.
-

2. Secondary Strikes (MEDIUM Confidence)

Race 2 (2:00) — Lulamba

- **Verdict:** STRIKE, MEDIUM
- **Reasoning:** Although the headline picks conflict (Postdata: Lulamba, Topspeed: Steel Ally), Lulamba is the dominant horse on RPR (+9) and OR (+10). Steel Ally's Topspeed advantage is marginal (162 vs 160). In a small field of 7, Lulamba's class edge is the deciding factor.

Race 4 (3:20) — Jagwar

- **Verdict:** STRIKE, MEDIUM
 - **Reasoning:** Full consensus (Postdata + Topspeed). Jagwar leads on RPR (joint top), PM (joint top), and TS. The main risk is the large field (20 runners), but the consensus signal on Good to Soft ground is strong enough to warrant a medium confidence strike.
-

3. Tertiary Strike (LOW Confidence)

Race 1 (1:20) — Old Park Star

- **Verdict:** STRIKE, LOW
 - **Reasoning:** Conflicting picks in a 12-runner field. Old Park Star has a strong RPR/PM profile but a weak Topspeed figure. Sober Glory is the value overlay with a much stronger TS rating. The conflict and borderline chaos rating (3) cap confidence at LOW.
-

4. Quarantined Races

Race	Time	Runners	Reason for Quarantine
3	2:40	24	Q9 Gate: 24 runners, conflicting picks, Chaos 5 (max)
6	4:40	28	Q9 Gate: 28 runners, conflicting picks, Chaos 5 (max)
7	5:20	22	Q9 Gate: 22 runners, conflicting picks, Chaos 4 (high)

These races are unworkable due to extreme field sizes and conflicting data signals. No strikes are issued.

Key Insights

- **Brighterdaysahead (4:00)** is the standout bet of the day. All data points align.
- The three quarantined races are all large-field handicaps with no clear data edge. Avoid.
- **Lulamba (2:00)** is a strong signal despite the headline pick conflict; the underlying data is clear.
- **Jagwar (3:20)** is a solid consensus pick, but the large field size adds risk.
