Note: Figures to the left of the horse name are Topspeed ratings for the horse's last eight races. Ratings are adjusted for weight. The superior figure to the left of these ratings represent the horse's finishing positions, the superior characters to the right of the ratings represent the going and distance of the race. Best ratings (to the right of the horse names) are adjusted for weight and reflect a horse's best rating in the period to date starting two season ago i.e. if the current season is 2019 then performances in 2017, 2018 and 2019 would count towards best ratings. Best ratings are surface specific i.e only the All-weather races count towards best ratings if today's race is on the All-weather. Official ratings in non-handicaps reflect each horse's latest published mark and are not adjusted for age and weight. Base ratings shows the master ratings unadjusted for age and weight.
