

VÉLØ ORACLE PRIME — STRIKE RECOMMENDATIONS

Date: 18 February 2026

Meetings: Punchestown, Ludlow, Southwell

Total Races: 20

EXECUTIVE SUMMARY

Strike Recommendations: $\frac{11}{20}$ races (55%)

Quarantines: $\frac{9}{20}$ races (45%)

By Meeting:

- **Punchestown:** $\frac{3}{7}$ strikes (43%) — Heavy going impact
 - **Ludlow:** $\frac{4}{7}$ strikes (57%) — Soft going, moderate conditions
 - **Southwell:** $\frac{4}{6}$ strikes (67%) — AW standard, highest predictability
-

PUNCHESTOWN (IRELAND)

Going: HEAVY

Surface: Turf

Strike Rate: 43% ($\frac{3}{7}$ races)

STRIKE RECOMMENDATIONS

RACE 2 — 14:10 — Irish Stallion Farms EBF Maiden Hurdle (2m4f)

TOP STRIKE: Court Compliance

Confidence: MEDIUM

Danger: Newbrook Diamond

Rationale: Smaller field (8 runners) allows Q6 assessment despite heavy going. Court Compliance shows strongest credentials with RPR 136 and Spotlight NAP selection.

Suppression Signals: S7 (Going Extreme)

RACE 4 — 15:15 — Mares Maiden Hurdle (2m)

TOP STRIKE: Torpille Dagrostis

Confidence: MEDIUM

Danger: The Jam Lady

Rationale: TS 126 dominant pick, consensus selection. Mares maiden with clearer form hierarchy than open maidens.

Suppression Signals: S7 (Going Extreme)

RACE 6 — 16:15 — Maiden Hurdle (2m)

TOP STRIKE: Johnny Cakes

Confidence: MEDIUM

Danger: Poets Oath / Ether Rock

Rationale: TS 95, Postdata + Topspeed agree. Moderate field size (10 runners) allows conditional strike despite heavy going.

Suppression Signals: S7 (Going Extreme)

QUARANTINED

- **Race 1 (13:40):** Q5 ACTIVE — Heavy going + 19 runners = Chaos Mode
- **Race 3 (14:45):** Mares maiden, limited form data

- **Race 5 (15:45):** Conflicting picks, insufficient form reliability
 - **Race 7 (16:45):** No TS data for any runner, form vacuum
-

LUDLOW (UK)

Going: SOFT

Surface: Turf

Strike Rate: 57% ($\frac{4}{7}$ races)

STRIKE RECOMMENDATIONS

RACE 1 — 14:00 — Novices' Hurdle (2m)

TOP STRIKE: Island Bridge

Confidence: HIGH ★

Consensus: ✓ (Postdata + Topspeed agree)

Rationale: Small field (3 runners), consensus pick, clear form advantage. Highest confidence strike of the day.

Suppression Signals: S7 (Going Extreme — Soft)

RACE 2 — 14:33 — Novices' Hurdle (2m3f)

TOP STRIKE: Misterdoc

Confidence: MEDIUM

Consensus: ✓ (Postdata + Topspeed agree)

Rationale: 9-runner field, Postdata + Topspeed consensus. Chaos rating $\frac{3}{5}$ (moderate).

Suppression Signals: S7 (Going Extreme — Soft)

RACE 4 — 15:35 — Novices' Chase (2m4f)

TOP STRIKE: The Newest One

Confidence: LOW

Danger: Petty Cash

Consensus: x (Conflicting picks)

Rationale: Postdata pick (The Newest One) vs Topspeed pick (Petty Cash). Tentative strike, conflicting signals.

Suppression Signals: S7 (Going Extreme — Soft)

RACE 7 — 17:05 — Novices' Hurdle (2m4f)

TOP STRIKE: Fresh Kicks

Confidence: LOW

Danger: Name Me Nicely

Consensus: x (Conflicting picks)

Rationale: Postdata pick (Fresh Kicks) vs Topspeed pick (Name Me Nicely). Tentative strike, 8-runner field.

Suppression Signals: S7 (Going Extreme — Soft)

QUARANTINED

- **Race 3 (15:05):** Chaos $\frac{4}{5}$, soft going, handicap complexity
 - **Race 5 (16:05):** Chaos $\frac{4}{5}$, soft going, handicap complexity
 - **Race 6 (16:35):** Chaos $\frac{4}{5}$, soft going, handicap complexity
-

SOUTHWELL (UK)

Going: STANDARD

Surface: All-Weather (Fibresand)

Strike Rate: 67% ($\frac{4}{6}$ races) — HIGHEST

✓ STRIKE RECOMMENDATIONS

RACE 1 — 14:20 — Novice Stakes (1m)

TOP STRIKE: Bank On Frank

Confidence: HIGH ★

Consensus: ✓ (Postdata + Topspeed agree)

Rationale: AW consensus pick, chaos $\frac{2}{5}$ (low), 7-runner field. Standard surface conditions provide higher predictability.

Suppression Signals: None (AW standard conditions)

RACE 2 — 14:55 — Handicap (1m)

TOP STRIKE: Disguisedlimit

Confidence: LOW

Danger: Doyouknowwhatimean

Consensus: x (Conflicting picks)

Rationale: Postdata pick (Disguisedlimit) vs Topspeed pick (Doyouknowwhatimean). 8-runner handicap, chaos $\frac{4}{5}$.

Suppression Signals: None

RACE 5 — 16:25 — Handicap (1m)

TOP STRIKE: Jaffa Cake

Confidence: LOW

Danger: Farmer Jimmy

Consensus: x (Conflicting picks)

Rationale: Postdata pick (Jaffa Cake) vs Topspeed pick (Farmer Jimmy). 10-runner handicap, chaos $\frac{4}{5}$.

Suppression Signals: None

RACE 6 — 16:55 — Handicap (1m)

TOP STRIKE: Asa

Confidence: MEDIUM

Consensus: ✓ (Postdata + Topspeed agree)

Rationale: AW consensus pick, chaos $\frac{3}{5}$, 8-runner field. Standard conditions favor form reliability.

Suppression Signals: None

QUARANTINED

- **Race 3 (15:25):** Large field (12 runners), chaos $\frac{5}{5}$
 - **Race 4 (15:55):** Large field (14 runners), chaos $\frac{5}{5}$
-

CONFIDENCE BREAKDOWN

HIGH Confidence (2 races)

1. **Ludlow Race 1:** Island Bridge (3 runners, consensus)
2. **Southwell Race 1:** Bank On Frank (AW consensus, low chaos)

MEDIUM Confidence (5 races)

1. **Punchestown Race 2:** Court Compliance
2. **Punchestown Race 4:** Torpille Dagrostis
3. **Punchestown Race 6:** Johnny Cakes
4. **Ludlow Race 2:** Misterdoc
5. **Southwell Race 6:** Asa

LOW Confidence (4 races)

1. **Ludlow Race 4:** The Newest One (conflicting picks)

2. **Ludlow Race 7:** Fresh Kicks (conflicting picks)
 3. **Southwell Race 2:** Disguisedlimit (conflicting picks)
 4. **Southwell Race 5:** Jaffa Cake (conflicting picks)
-

KEY INSIGHTS

Going Conditions Impact

AW Standard (Southwell):

- 67% strike rate
- No suppression signals
- Highest predictability

Soft (Ludlow):

- 57% strike rate
- S7 suppression active
- Moderate predictability

Heavy (Punchestown):

- 43% strike rate
- S7 suppression active
- Lowest predictability

Consensus vs Conflicting Picks

Consensus picks (Postdata + Topspeed agree):

- 5 races
- Average confidence: MEDIUM-HIGH
- Strike rate: TBD (post-race SIGMA)

Conflicting picks:

- 4 races
- Average confidence: LOW
- Higher uncertainty

Quarantine Protocol

45% quarantine rate demonstrates:

- Truth before optimization
- Honest assessment of uncertainty
- Discipline over volume

Primary quarantine drivers:

1. Heavy/soft going (7 races)
 2. Large fields 12+ runners (2 races)
 3. Limited form data (3 races)
-

RISK FACTORS

Punchestown

- **Heavy going** across all races
- Form reliability significantly reduced
- Only $\frac{3}{7}$ races cleared quarantine gates

Ludlow

- **Soft going** across all races
- 3 handicaps quarantined (chaos $\frac{4}{5}$)
- 2 low-confidence strikes (conflicting picks)

Southwell

- **AW advantage** (standard conditions)
 - 2 large-field handicaps quarantined
 - 2 low-confidence strikes (conflicting picks)
-

RECOMMENDED ACTION

Priority Strikes (HIGH Confidence)

1. **Ludlow Race 1 (14:00):** Island Bridge
2. **Southwell Race 1 (14:20):** Bank On Frank

Secondary Strikes (MEDIUM Confidence)

1. **Punchestown Race 2 (14:10):** Court Compliance
2. **Punchestown Race 4 (15:15):** Torpille Dagrostis
3. **Punchestown Race 6 (16:15):** Johnny Cakes
4. **Ludlow Race 2 (14:33):** Misterdoc
5. **Southwell Race 6 (16:55):** Asa

Tertiary Strikes (LOW Confidence)

1. **Ludlow Race 4 (15:35):** The Newest One
2. **Ludlow Race 7 (17:05):** Fresh Kicks
3. **Southwell Race 2 (14:55):** Disguisedlimit
4. **Southwell Race 5 (16:25):** Jaffa Cake

Avoid (QUARANTINED)

- Punchestown: Races 1, 3, 5, 7
- Ludlow: Races 3, 5, 6
- Southwell: Races 3, 4

DOCTRINE ADHERENCE

Truth before optimization:

- 45% quarantine rate ($\frac{9}{20}$ races refused)
- Honest confidence scores (2 HIGH, 5 MEDIUM, 4 LOW)

Memory before learning:

- All predictions logged for post-race SIGMA evaluation
- American State learning applied (R tag proposal)

Doctrine before power:

- Strict quarantine gates maintained
- No strikes issued where uncertainty too high
- Discipline over volume

Information only — independent decision required.
